JUNE 2019

ISSUE #1

# A word from our director

The first six months of 2019 have been a whirlwind of new team members, new contracts and new objectives, and I'm very excited by the direction Howard Civil Engineering is taking.

We now have two certified Mental Health First Aiders, three new contracts in progress and a number of newly completed projects under our belts.

Most importantly, I'm thrilled with the praise we have received

from our stakeholders on recent projects; our Futurist team were recognised for the hard work by our client ( page 3) and the public are very engaged with our Community Liaison work on Hard Ings Road, Keighley.

I'm very excited to share more of our latest news with you - welcome to the first ever issue of the Howard Civil Engineering Newsletter.

*Michael Howard*

# NEW PROJECTS

**HOWARD**  
CIVIL ENGINEERING

## HUDSON QUARTER

Replacing a prominent 1960s office building in the centre of York overlooking the historic city walls, Hudson Quarter will provide a combined residential, retail and office development creating 127 new flats.

We have secured the groundworks package for this new development and will also be delivering the RC frames for our good client, Caddick Construction.

Three concrete frames and one steel frame will make up four blocks in total around a landscaped central courtyard.

Work commenced April 2019.

## AFLEX HOSE

We have been awarded the groundworks package on a new 17,000 sq. m factory and three-storey office building in Huddersfield for our long-standing client, GMI Construction!

The new factory will provide new extrusion lines and processing equipment for Aflex Hose, manufacturers of world-leading PTFE-lined flexible hoses for the pharmaceutical, biotechnologies, food and beverage, chemical and automotive industries.

Work commenced March 2019.

## HARD INGS ROAD IMPROVEMENT

We are thrilled to be Bradford Council's contractor of choice to complete roadworks on their upcoming £10.3m Hard Ings Road scheme in Keighley.

Our improvement works for Hard Ings Road will see the existing road widened into a dual carriageway and the implementation of an extra lane on Beechcliffe Roundabout to ensure a reduction in congestion and an increase in road safety.

Work commenced April 2019.

# LET'S CELEBRATE!

Please contact Lucie or Wanda if you are struggling with mental ill-health.

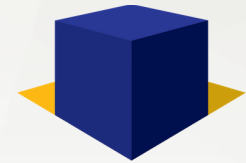

Congratulations to Pre-Contracts Manager Lucie Jones and Health and Safety Advisor Wanda Curtis on recently becoming qualified mental health first aiders!

'We hope to break the silence and stigma surrounding mental ill-health throughout Howards and raise awareness and understanding of mental health and mental ill-health within our company.'

- WANDA CURTIS

## WELL DONE, SCARBOROUGH TEAM!

Congrats to the fantastic team working on the Futurist project in Scarborough who were treated to a hearty breakfast from our client, Willmott Dixon! An excellent way to say thank you for your hard work and outstanding health and safety standards on-site at Blands Cliff - well done, guys!

Engineer  
- 5 years

**Steve Poulson**  
Project Manager  
- 14 years

*Thank you for all your hard work!*

# BRADFORD DRAGON BOAT FESTIVAL

**HOWARD**  
CIVIL ENGINEERING

**Sunday  
23rd June**

**We're taking to the waters of  
Roberts Park to raise money for  
Bradford Hospitals' Charity!**

As we undertake roadworks on Hard Ings Road on behalf of Bradford Council, we're also tackling the 'row-works' at Bradford Dragon Boat Festival to raise money for Bradford Hospitals' Charity's 'Rays a Smile' appeal!

We've already raised £1,800 for this spectacular cause and hope to raise much more to help Bradford Hospitals' Charity transform the radiology departments at Bradford Teaching Hospitals into warm and welcoming spaces for children.

# ON-SITE SPOTLIGHT

## Kirkstall Road, Leeds

**Client:** Hollycroft Construction  
**Value:** £2.1 million

[Click to read more](#)

Works to deliver the RC frame for this PRS scheme on Kirkstall Road are now complete!

The limited site footprint on this development meant we had to push ourselves and explore alternative methods of construction, but this was a challenge we overcame as a team.

A huge congratulations to the site team who pulled out all the stops on this monumental project:

**Ben Williams (Contracts Manager), Mieczyslaw Ulanowicz (Project Manager), Liam Grimes (Site Manager) Joel Moore (Engineer) and Kian Hegarty (Trainee Engineer).**
